Global Solid-State Laser Market 2016-2020 Analysis of Communication, Medical, Materials Processing, Data Storage, Defense & Automotive Segments

PR Newswire

DUBLIN, Feb. 15, 2016

Research and Markets

(<http://www.researchandmarkets.com/research/6mw9l4/global>) has announced the addition of the "Global Solid-State Laser Market 2016-2020" report to their offering.

The global solid-state laser market will witness an initial increase and then fall in revenue, and is likely to decline at a CAGR of (1.3)% during the period 2016-2020.

Global Solid-State Laser Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

The market is going through increased consolidation, a trend expected to continue during the forecast period. Existing vendors and new entrants are entering into acquisitions to either enter the market or broaden their portfolio.

According to the report, the augmented usage of solid-state lasers in the healthcare industry is the key driver for the growth of this market. The augmented usage of such lasers in the field of dentistry by large and small-scale dentists across the globe is envisaged to result in market growth during the forecast period.

Further, the report states that the penetration of fiber lasers is significantly hampering the sales of solid-state lasers in the laser industry.

The market is divided into the following segments based on application:

- Communication
- Medical
- Materials processing
- Data storage
- Defense
- Automotive

Key vendors

- Coherent
- Rofin-Sinar Technologies
- Trumpf

Other prominent vendors

- EKSPLA
- JDS Uniphase
- Jenoptik
- Laserglow Technologies
- Photonics Industries
- Photonic Solutions
- **Quanta System**

Key Topics Covered:

PART 01: Executive summary – Highlights

PART 02: Scope of the report

- Market overview

- Top-vendor offerings

PART 03: Market research methodology – Research methodology – Economic indicators

PART 04: Introduction

- Key market highlights

- Industry overview

- Lasers and applications

- Technology landscape

PART 05: Market landscape – Market overview – Market size and forecast – Five forces analysis

PART 06: Market segmentation by application

- Global solid-state laser market segmentation

PART 07: Geographical segmentation – Global solid-state laser market segmentation by geography 2015-2020 – Solid-state laser market in APAC – Solid-state laser market in Europe – Solid-state laser market in North America

PART 08: Impact of drivers

PART 09: Impact of drivers and challenges

PART 10: Vendor landscape

- Competitive scenario

- Other prominent vendors

PART 11: Key vendor analysis – Coherent – Rofin-Sinar – Trumpf

PART 12: Appendix
